LARGEST CIRCULATION

NUMBER 77

You can just as well have a "sane 4th" as any other kind; the idea that the only way to celebrate the Day of Independence is by making all the noise possible, is beginning to lose its hold on the public. A quieter method is being approved very generally. You can have a sane 3rd, or 2nd, or 1st; or any other date, and show that you're sane, by coming in here on any day and asking us to fit you in a

A POISON TALK

What Becomes of the Poisonous Matter You Eat and Drink.

Almost every day you eat or drink something containing some kind of poison. There is poison in tainted meat, in tobacco, in alcoholic drinks, in many food preservatives.

These poisons naturally are not taken in large doses, and will not harm one unless taken in unusually large quantities—as long as they are transformed into beneficial agents or are not permitted to remain in the system to clog it up.

The liver is the great poison transformer. The healthy liver seizes every bit of poison and turns it to us, or rushes it out of the system. A healthy liver is absolutely necessary to health. If your liver is not healthy, you can't be healthy. If it breaks down, the poison remains in your system, interfering with every other organ, discouraging every bodily function, bringing ill health and perhaps worse.

To restore your liver to health—to provide that poisons shall be removed and not left in the blood to carry their paralyzing influence to the brain, nerves, stomach and kidneys—to keep your internal organs clean, vigorous, instantly responsive to every demand made upon them, is to preserve your strength, increase the comfort of living and prolong your life.

We guarantee that Rexall Liver Salts will prove good for your liver. It quickens the liver action, promotes the secretion of healthy bile, improves digestion, moves the bowels, and thus brightens and invigorates the whole system.

Rexall Liver Salts is a combination of salts found in certain medicinal waters of Europe and other countries, the waters you read about people spending hundreds of dollars and going thousands of miles to drink. Bicarbonate of Phosphate, Sulphate and Chloride of Sodium, Lithium Carbonate, Potassium Sulphate—Nature's remedies for the "blues," rheumatic and gouty troubles, biliousness, indigestion, some forms of skin diseases, which, in many cases, are manifestations of liver trouble.

Rexall Liver Salts makes it unnecessary for you to go to Europe. You can have similar treatment at home, at almost no expense. They thoroughly cleanse, with no violent purging. We guarantee satisfaction, or refund your money. 25c and 50c. Sold in this community only at our store. The Rexall Store. Gwin & Mays Drug Co., 121 W. Main St.

OLD GLORY APPEARS

WITH 48 STARS

Washington, D. C., July 4.—Two stars were added to the national flag today, denoting the addition of Arizona and New Mexico to the sisterhood of states. It has been some time since the two territories became states, but under the law the change in the flag could not be made until today, which is the independence day next following their admission to statehood.

The law governing the subject is contained in the act of congress approved April 4, 1818. That act provides as follows:

On the admission of a new state into the union, one star shall be added to the union of the flag and such addition shall take effect on the 4th day of July then next succeeding such admission."

This is the first time since 1890 that more than one star has been added at a time. In that year stars were added for the five new states of Idaho, Washington, Montana and North and South Dakota.

Since July 4, 1896, the official arrangement of the stars in the blue field of the flag has been such as to permit the addition of more stars without destroying the symmetry of the approved design. In none of the acts of congress relating to the flag has the manner of arranging the stars been prescribed. Before the date named there was a lack of uniformity in the matter. After July 4, 1896, when Utah was admitted to the Union, the forty-five stars in the flag were arranged in six rows, the first, third and fifth rows having eight stars each, and the second, fourth and sixth rows, seven stars each.

Four years ago a rearrangement of the stars was made by a joint board of army and navy officers to meet the case of Oklahoma. Under that arrangement to meet the case of Arizona and New Mexico was a very simple matter. All that was necessary was the addition of a star each to the second and fifth rows, which makes six rows of eight stars each. Since the admission of any of the territorial possessions to statehood is a matter of the distant future the present arrangement of the stars in the national flag is likely to remain unchanged for a long time to come.

Ada has been much like Goldsmith's deserted village today. Most of the population seemed to be out of town celebrating the day and just about everything has been closed tight.

NEW SUPERINTENDENT

FOR FRISCO DIVISION

A sudden change of superintendents on the Red river division of the Frisco took place on the first R. F. Carr who was appointed to the position about three months ago, was transferred to the Gulf Coast line with headquarters at Kingsville, where he will occupy the position of general superintendent. He was succeeded by C. F. Hopkins, who has been connected with the road from a number of years. During his short administration on this division Mr. Carr won many friends among the employees and patrons of the road. Mr. Hopkins comes with a most excellent reputation as a man and as an officer.

KILLING RESULTS FROM EMPIRE'S DECISION

Ardmore, Okla., July 3.—A decision of the umpire in a baseball game led to a quarrel and Hickman Johnny, an Indian, is dead, and Henry Kiel, white man, is probably fatally injured. Hickman Willis, another Indian, is in jail.

A Funny Play at the Tent Tonight.

Dubinsky Bros. Stock Co. will produce at their tent tonight, the funniest play ever written, entitled, "Tom Dick and Harry. This is without a doubt a sure cure for the blues. It is guaranteed to make the sourest of the sour laugh, and a good hearty laugh is the best thing for a human being. An entire change of specialties will be made between acts. The crowds are getting larger at the tent each night. People are driving in from neighboring towns to see this show.

SMITH'S

DECISIVE BATTLE

MAY BE FOUGHT

At Gen. Huerta's Federal Headquarters, Bachimba Station, July 3, 10 p. m.—Government troops tonight occupy the entrance to Bachimba Canyon and several important positions surrounding it, having driven the rebels toward the north end of the mountain pass. Gen. Huerta regards the day's fighting as a brilliant victory for the government.

Rebel Front, Bachimba, Mexico, July 3.—In the heart of the mountains of Northern Mexico, where Bachimba Canyon, a natural fortress, controls the southern gateway to the city of Chihuahua, was begun today what may prove to be the final battle of the Mexican revolution.

During six hours of brisk fighting between 5,000 rebels, under Gen. Pascual Orozco, and an almost equal number of government troops under Gen. Victoriano Huerta, no great advantage was gained by either side, indications tonight being that if the rebel ammunition holds out, the state will not be decided for several days.

A federal victory means the end of the organized revolution and a probable succession of guerrilla struggles.

The federals at nightfall were pouring a heavy artillery fire into the rebel positions.

Col. Francisco Castaneda, chief of Orozco's staff, distinguished himself during the fighting by leading a column that thwarted a federal assault on the northwest. He had hardly recovered from his wounds received in a collision of troop trains ten days ago.

For five weeks the contending armies had been separated by burned bridges and demolished railway tracks left by the rebels as they retreated north after the battle of Reliano. Slowly the government commander repaired 140 miles of railroad and several big bridges on the Mexican Central Railroad, finally bringing his artillery to Bachimba, where, in the meantime, the rebels had entrenched themselves.

Because of the rugged nature of the country where the fight began today, an artillery assault in front of Bachimba was seen to be impossible, so the government commander brought his guns into play on the east and west side of the canyon, which winds north and south for a distance of three miles. Perpendicular walls of rock with occasional ledges guard both sides of the canyon.

Leaving a small force at the entrance to the canyon to guard troop trains, the federals moved to the right and left of the pass and mingled a heavy artillery bombardment with the steady fire of infantry.

In defense, the rebels had placed their cannon at right angles to Bachimba pass, protected by large columns of infantry. As the fighting progressed there were desperate rallies of federal cavalry through the sharp gaps which cut through the canyon in many places, but the rebels managed to check each dash.

The federal shelling did little damage in the rebel camp. At nightfall only slight losses had been reported.

This Date in History.

- 1776—Congress proclaimed the Declaration of American Independence.
- 1778—Massacre of inhabitants in the Wyoming Valley, Pa., by Indians and Tories.
- 1788—First organized celebration of Independence Day in Ohio took place at Marietta.
- 1804—Nathaniel Hawthorne, famous author, born. Died March 19, 1864.
- 1829—Corner-stone laid for the United States Mint in Philadelphia.
- 1836—Territorial government for Wisconsin organized at Mineral Point.
- 1865—Gen. Pemberton surrendered Vicksburg to Gen. Grant.
- 1865—Rt. Rev. Alonzo Potter, third Episcopal bishop of Pennsylvania, died in San Francisco. Born in Beekman, N. Y., July 6, 1800.
- 1894—The Hawaiian Republic was proclaimed.

The Yeomen is the largest beneficiary order in the world that admits men and women on equal terms. 64-30t

TEDDY WILL

CONTINUE FIGHT

Oyster Bay, N. Y., July 3.—After a conference between Theo. Roosevelt and several of his lieutenants here tonight the colonel emphatically denied reports that the third party movement had sustained a serious setback. The Roosevelt men discussed various plans for organization of the new party, talking over issues that will be presented in opposition to the other major parties. One of these is the promise that bosses will be the special target for the political ammunition of the new party—is expected to gain for the Roosevelt movement a large amount of support in the south.

The statement that Governor Osborn of Michigan, one of the seven governors who asked Col. Roosevelt to become a candidate for the republican nomination, that in his opinion no third party was now necessary was cited to the colonel as one reason for the reports that all was not going well with the movement.

"Governor Osborn has said about the same thing before," he said. "I did not expect to have his support. We are going to have some losses of this sort. Governor Hadley came out for Taft, Governor Osborn for Wilson, our plans will not be affected."

Col. Roosevelt said he was in no way discouraged at the outlook, but on the contrary had received assur-

ances of support from every section of the country.

Colonel Roosevelt was asked what the party would be named.

"Search me, by George," he replied. "The names I have heard most frequently mention are progressive party and national progressive party. The convention will decide."

Although Senator Dixon said yesterday that the call for the convention would probably be issued tomorrow, Colonel Roosevelt gave it as his opinion that it would be delayed until Monday.

MAYOR RATLIFF ADVISES A GENERAL CLEANUP

The new government of the city is now installed. It is said that a new broom sweeps clean. Then let us put our hand to the broom, and the hoe, and clean up this town. This is to notify the citizens that I have called upon the Health Officer to notify the individual citizens to cut the weeds from his premises, and otherwise aid the officers in cleaning up the town. Why not do it before he notifies you. The owner or agent for vacant property is expected to keep the weeds cut and rubbish removed from his vacant property as well as that which is occupied, or improved.

E. S. RATLIFF,
Mayor, and Com. of Pub. Justice and Safety.

Your agent. Results are sure.

L. C. (CLARK) LINDSEY

THE NOSE A FILTER TO STRAIN THE AIR

Catarrh Clogged Nostrils A Breeding Place for Deadly Germs.

The nostrils are perfect "air filters" and, when kept in clean, healthy state strain every bit of air we breathe, catching all dust particles, foreign matter and germs. The air is full of germs. You cannot dodge them, but you can safe-guard yourself against catarrh and other diseases contracted in the process of breathing by keeping the nostrils clean and healthy. Catarrh germs will sometimes get in their work, and you may mistake the symptoms for an ordinary cold.

Don't take any chances. If you have a stuffed up feeling in the head, or if your throat is sore or filled with phlegm, just grease the nostrils with a little Ely's Cream Balm, draw the pure, aromatic fumes back in the head, and you will be astonished at the effect. In a few minutes you will feel a loosening up in the head, the nasty discharge will soon be stopped, the soreness gone, and you will feel a sense of genuine relief.

Ely's Cream Balm not only wards off catarrh, but will quickly cure even a chronic, longstanding case of catarrh. It takes the trouble right where it starts, in the nose and throat, cleanses, heals and strengthens the raw, sore inside skin, or membrane, and in this way drives out catarrh and makes you proof against this filthy, disgusting disease.

Summer Colds, which often hang on for weeks, can be quickly cured with this cleansing, healing, antiseptic balm. All druggists sell it for fifty cents a bottle, and the one bottle is generally all that is needed to effect a complete cure. Try it today. Special agents, Gwin & Mays Drug Co.

REVIVAL SERVICES AT CHURCH OF CHRIST

Revival services continue at the Church of Christ, corner 9th and Oak streets with good interest and splendid preaching. You are cordially invited to attend and bring your Bible questions. Evangelist W. H. George of Cumby, Tex., will join us today to remain for a week or longer. It will pay you to hear him if you are a lover of Gospel Truth. You will only be a stranger one time if you come.

Baltimore Recalls War of 1812.

Baltimore, Md., July 4.—In celebrating the national independence day Baltimore today turned back the pages of history one hundred years, to the beginning of the second and last war between the United States and Great Britain. Under the auspices of a citizens' committee there was given an elaborate pageant depicting the stirring events of the war of 1812 in which Baltimore figured conspicuously. The daring deeds of Baltimore's clipper-built ships and privateers were illustrated, also the historic siege of Fort Mifflin, which inspired Francis Scott Key to write the national anthem, "The Star Spangled Banner."

NEW MUSIC TEACHER FOR THE NORMAL

The vocal and instrumental music departments of the normal have been combined and will be in charge of Miss Cecile Hindman of Kansas City, who held a position at the state normal at Warrensburg, Mo., last year. The new teacher is already on the ground familiarizing herself with conditions and preparing for her work next term. Her excellent recommendations would indicate that she is thoroughly competent and will fill the place most acceptably.

PROGRESSIVES CONTROL SOUTH DAKOTA CONVENTION

Huron, S. D., July 3.—Every effort of the Taft forces in the republican state convention last night to secure an endorsement of the Taft candidacy or to instruct the five electors for him was futile. The electors are unimpressed.

The progressives controlled the convention, which is among the first state republican conventions to be held since the republican national convention.

USE GAS IN SPORTS

Too Frequent "Jags" From Oxygen Dangerous.

Proposition of Sir Edwin Ray Lankester Denounced as Unsportsmanlike and Unscientific—Will Shorten Life.

London.—The lay press reports that Sir Edwin Ray Lankester has inquired if the Swedish authorities, who will have charge of the coming Olympian games, will permit a Marathon competitor to carry an oxygen tank or bag and take from it an occasional whiff during that cruel and grueling twenty-six odd miles that must be run by those who would be in at the finish. The competitors, he observes, will presumably be allowed to consume refreshments while racing. "It would be extremely interesting to see whether such breathing is of material assistance to the runner, and as oxygen gas is not a drug, but as natural an article of consumption as water, there seems to be no reason why the runner should be disqualified for refreshing himself with it, as he may with soup or water."

Stimulating drugs are, of course, rightly barred from any athletic contest worthy the name, the Scientific American remarks. Oxygen is in these circumstances certainly a drug, inasmuch as it "dopes" the recipient, quite like many another drug. Pure oxygen is a powerful and most valuable stimulant for the sick who require it—patients with coma or pneumonia in extremis. But, as with all stimulants, excessive use of it is dangerous. It first excites and then depresses; frequent oxygen intoxication will prematurely exhaust the individual's vitality and will surely tend to shorten his days. Such indulgence will make the cardiac beats most pathologically rapid and powerful; the blood will flow in excessive volume and strength and the collapse will be in reciprocal proportion. The ears sing in an "oxygen jag," as if one should hang head downward over a cliff; speech is hesitating, "ideas swarm," but it is hard to seize them.

Sir Edwin's proposal is amazingly unscientific in a scientist of so great reputation and it is most unsportsmanlike, especially in an Englishman, the Britisher being nothing if not a lover of fair play in sport. What folly to declare nascent oxygen as natural an article of consumption as water! Pure oxygen is far from being such a thing; it is natural only to be breathed when it is diluted with several times its volume of nitrogen.

Pure oxygen has before been used in athletics, but all that kind of thing is altogether cheap and unprofitable and it has a yellow streak. Yes, records have been broken by this means. They should not stand; they do not in the minds of the sporting aristocracy. And the reason why is that they are not tests of brawn and endurance under the inexorable conditions in which human life must ordinarily be lived. An oxygen drunk might make an untrained, undeveloped, soft muscled, ordinarily short winded specimen successful for the brief span of a given contest; but for all that he would be poorer, and not the really triumphant man. All competitions should be held under natural conditions, such as must be chanced and coped with in nature.

The only safe and sane way to breathe oxygen is in combination with nitrogen as it exists in the circumambient air, in the form to which, during the ages, human and all other life has become adapted. Normal living is ever "the right adjustment of internal relations to external relations."

After all, why should marathons be run, anyway, except for the glorious and sufficient purpose of announcing in the Athenian market place the victory at Marathon over the Persians? How utterly purposeless is today this terribly taxing race, which must for many a participant result in disease and in shortened existence.

CUT OFF FOOT BY WIRELESS

Gulf Operator Told How to Perform Operation by Doctor on Ship 420 Miles Away.

New Orleans, La.—How a laborer on Swan Island, a lonely wireless station in the gulf, sustained a crushed foot; how the wireless operator on the island communicated with a ship 420 miles away, raised the surgeon and got him to explain the proper way to amputate, and how the operator's assistant performed the operation, is a story told by the manager of a big shipping firm. New Orleans physicians describe it as "surgery by wireless."

On Swan Island is a wireless station, one of the links in the United Fruit chain to the tropics. When a laborer hurt his foot in a tram car accident the wireless operator concluded an operation was imperative. There were no medical books at hand, and no one at the station ever had hacked at a fellow being. Then the operator had an "inspiration." He called a fellow craftsman on a ship passing 420 miles below into the Caribbean sea. The situation was explained to the ship's surgeon, and detail by detail he explained just how the amputation should be handled.

After the arteries had been tied and the wound dressed the patient recovered his senses and insisted on pressing the wireless key to express his thanks. At last accounts he was getting well.

Obituary.

Shands:—Our dear darling, Lucy Adelia Shands, was born in Kaufman county, Texas, October 19, 1866; died at Dallas, June 12, 1912; was buried at Forney, Texas.

She had been in poor health for several years, and while everything was done for her, that loving hands could do, she did not gain her health, but went into pernicious anaemia and was pronounced incurable. She suffered so much, and so long, but was always bright and cheerful. We are grateful to know, that when the end came, she passed peacefully away, "as a little child goeth to sleep."

No more can we see her sweet smiling face, but we weep not, as those who have no hope, for she was truly a Christian. She desired to become a Christian, at the tender age of eight years, but her mother persuaded her to read the New Testament through, to learn more of Him; this she did, and at the age of thirteen, united with the Christian church, at Willow Springs, Tex., was baptized by V. I. Sterman, and was ever strong in the faith of her choice. She was a noble, lovable, Christian character, an example to her family, and her friends. She leaves a husband, a son, and daughter, to mourn the loss of a mother and wife.

God help us all to be faithful to the end as she was, that we will meet again, is the prayer of her loving mother,
S. A. S.

NOTICE.

Under the law all voters living in cities of the First Class are required to register during the month of July. For the convenience of all parties arrangements have been made with G. P. Carney to keep the books open at Jones Drug Store, opposite the post office. Be sure to register, otherwise you will not be allowed to vote in the coming election.

A. R. SUGG,
Secretary County Election Board.

MINNESOTA PROGRESSIVES WILL SUPPORT WILSON

Minneapolis, Minn., July 4.—The Minnesota Progressive Republican League will back Woodrow Wilson, democrat, in his coming campaign for the presidential election, according to George S. Loftus, president of the league, in a statement today.

According to Mr. Loftus practically all of the members of the executive committee of the league have agreed to this plan.

"Woodrow Wilson represents our idea of progressivism," said Mr. Loftus. "There is no reason for us to join the third party movement and neither can we support President Taft. We will work for Mr. Wilson in the state."

Everyone is reading our want col-

NICE FRUIT

I have some nice Fruit, consisting of Apples, Peaches and Grapes, which has been thoroughly sprayed, will deliver to any part of the city at reasonable rates. Phone F-15 JOE RUSHI G

FIXALL Makes It New

Refinish your shabby furniture — you can do it yourself, successfully, and no other expenditure brings such complete satisfaction as the few pennies spent in making the shabby furniture, floors and woodwork look brighter and more attractive. You can save the old chair that is associated with hallowed memories — you can make the floors look like new if you apply

FIXALL

"The Finish That Lasts"

RAMSEY DRUG CO.

A 15¢ Can will do over a piece of furniture like this

On East Main street, in beautiful Ford addition. Terms to suit purchaser; small cash payment. Title perfect. R. P. Ford, Ada, Okla. 47-tf

The young folks enjoyed an early morning hop at the city hall this morning, the dance beginning about 5 o'clock and lasting until about 8.

District Manager W. W. Ayres and W. E. McKelvey want your application in the Yeomen. Phone 184 or 140. 164-30t

Yesterday was a red letter day for the Purity Ice Cream Co. The numerous picnics in places near Ada and other customers took 300 gallons of cream, but the local factory was equal to the job and filled every order.

Talking about first aid to the injured, John Beard is the most thoughtful of our acquaintances. Within half an hour after the news of the defeat of Champ Clark he rushed to the News office with a quarter's worth of cigars to smoke after the feast of crow was disposed of.

Palace Cafe is noted for good service and quick attention. 76-6t

If any one cares for any information about cucumbers, Al Constant says C. F. Green is the man who can impart it. However, it might be well for the questioner to stand at a safe distance when making inquiries, for neither Mr. Constant nor the News will put up any guaranty of the result of such rashness.

Join the Brotherhood or American Yeomen. Membership 165,000 reserve fund \$2,000,000. 64-30t

Among the late arrivals at the normal is Prof. Milton Finch, principal of one of the ward schools of Sulphur. He was formerly connected with the Waxahachie, Tex., Enterprise, and an old time friend of a part of the News force. He is an all round good fellow and has shown his progressiveness by coming to Oklahoma to grow up with the country.

Van Gofre and Cotrely, the vaudeville stars at the Majestic will appear this evening with a complete change of program. They have made good and this evening's performance will be the best yet. Two good pictures will complete the program. One of these shows ten days with a fleet of United States battleships and the other is entitled "A Railroad Engineer."

CITY NEWS IN BRIEF

D. S. Newton went to Wewoka this morning to spend the 4th.

Always got all kinds of paint at lowest prices at Dr. Holley's Drug Store. 229tf

W. B. Crowder was up from Roff this morning.

See B. B. Howard for all kinds of tin work. Phone 256. 166-dtf

Dr. J. R. Runyan and family left this morning for their home at Lakeland, Florida.

OKLAHOMA STATE LEAGUE DEAD

Oklahoma City, July 4.—After having died a natural death ten days ago when former President Leo Meyer declared the association disbanded the Oklahoma State league of baseball clubs has absolutely refused to be resurrected. Wednesday only one game was played, the word came from Tulsa that President-elect J. B. Bartlett had thrown up his hands and declared the league "had quit." Lack of patronage all over the circuit and heavy expenses has been the death to hope of organized baseball in Oklahoma this year.

The venture of this league has demonstrated conclusively that an Oklahoma state league is an impossibility. So some say and others take exceptions to the statement. The latter hold that bad management on the part of the club owners and absolute disregard for the provisions of the constitution and by-laws, especially the salary limits, have been to blame for the failure of the league to make good. This coupled with the loss of Oklahoma City support and the burden of carrying the club here was too much for any organization, especially one so young.

When the final settlement was made it was found that of all the clubs which started the season, Guthrie was the only one which was not a heavy loser in money. The club there was owned and operated by the chamber of commerce, and in spite of the fact that it was at the bottom of the column practically all the season, the attendance there was enough to meet all expenses.

While this means the end of baseball in Oklahoma City for this season, it is probable another league will be organized next year. It may be that the circuit then will include out-of-state cities such as Joplin, Springfield and Fort Smith.

Try a want ad in the Evening News

"Bachelor Peaches."

This afternoon G. W. Hall brought in a small branch from a tree containing eighteen peaches. He calls them bachelor peaches but evidently that is not the true name, for they are altogether too thick to be bachelors. Mormon peaches would be a better name.

LESLIE MAXEY

For Representative:
JNO. P. CRAWFORD (Re-election)

For Clerk of District Court:
FRANK HUDDLESTON
A. D. TANNER
L. C. (CLARK) LINDSEY

Progressive leaders in several western states insist that since they already control those states no third party is needed. In other words, Roosevelt electors will run as republicans and if elected, will cast their votes for him. In such a contingency it is entirely possible that the election will be thrown into the hands of a man familiar with this section.

When Wilson takes up his abode in the White House he should by all means appoint an Oklahoman as secretary of the interior. This state is more vitally concerned in that office than in all the remainder of the cabinet. The settlement of the Indian affairs should by all means be in the hands of a man familiar with this section.

The Dallas News modestly admits that it had a small part in winning Texas for Wilson. The News is entitled to crow a little, for it is the first time in twenty years it has been on the winning side of anything in Texas. Quite a jump, too, from McKinley in 1896 to cheering for Bryan in 1912.

"Evolution is a universal doctrine" says The Memphis Commercial Appeal. "Every man who has an old coal house in his back yard has visions of it growing up into a garage." And every owner of a 1912 runabout expects it to grow into a 1913 touring car.—Florida Times-Union.

If Wilson could have realized his wish to see Bryan knocked into a cocked hat, where would Mr. Wilson have been at the Baltimore convention?

Congressman Longworth of Ohio finds himself in about the most ticklish place imaginable. He represents a strong Taft district in Ohio but Teddy is his father-in-law and demands his support. It looks very much like he will lose his job no matter whether he tries to keep peace in the family by supporting the colonel, or takes the bull by the horns and declares for Taft.

That Champ Clark and his wife feel bitterly toward Bryan is not surprising for his was the handwriting on the wall that signed the doom of their ambition. But the speaker should instantly rise to the occasion and pledge his support to his successful rival shows of what fine timber he is made. Nobody can be generous in prosperity; but it takes a strain of the heroic to be great in defeat.—Commercial Appeal.

McDonald Westbrook accompanied his grandparents, Capt. and Mrs. J. C. Cates, to Shawnee for a few days' visit.

Marriage Licenses.

J. J. Mason, Stonewall, 18. Julia Moss, Stonewall, 18.

J. H. Burgess, Ada, 24; Sarah Davis, Stonewall, 22.

Dr. J. D. Lister returned yesterday from an extended trip to Sulphur and other points in the state. He was under treatment at Sulphur for some time after leaving Ada.

Let the News WANT COLUMN be your agent. Results are sure.

MASONS ADOPT A PLAN OF REFERENDUM

The spirit of progressiveness which seems to have taken a firm grip on political affairs is beginning to spread into the Masonic legislation. The grand lodges of two states have passed by grant lodges of these states be comes operative it must be submitted to the subordinate lodges for approval or rejection. Inasmuch as in the beginning each lodge was sovereign in its own right and grand lodges were an invention of comparatively modern times and have only such powers as are delegated by the individual lodges, it is clearly within their discretion as to whether the grand lodge shall have the power to bind them with its enactments or whether they shall be required to submit their conclusions to the authors of their being for approval before it shall be binding on any. As the Masonic order is essentially a democratic institution, the will of the majority is the will of the whole, and it is directly in line with democratic principles to have the referendum.

Feeding Chicks.

"I am an operator on the Santa Fe and trying to raise a few chickens for past-time, have about five hours each day to look after them. I have the White Plymouth Rocks, also the Black Langshans. Both of these kinds claimed to be pure, but I do not know very much about chickens. Have fixed up pretty well and keep my hen house clean and have it white washed and go over it about every two weeks to be sure and keep the mites down and my lots are dry and clean. I put about thirty chicks with a hen and keep her in a small pen at night and let her out early of mornings when it is warm and clear. If it is cold I keep her inside, but open a front door so that she will get the morning sun. I never let the chickens out of a pen I have for each hen and flock. This pen is four by ten and two feet high covered with wire. I feed them green alfalfa and chops and keep plenty of grits for them. Any information you will furnish me about the care and feeding of these chicks will be very much appreciated.—A. G. Lincoln County, Oklahoma.

I will say that I think that your method of management and feeding is all O. K. Chicks will do far better if they are given plenty of range and room with a large variety of feed. However, we must not give the chicks the opportunity to range when the ground is wet or through grass that is damp and when it is cold they are far better off inside. There is only one thing that you lack in feeding and that is animal food. In order to get the best results we must give the chicks some kind of animal food. There are several kinds of animal food, commercial beef scrap, green cut bone, insects and worms and buttermilk. If the chickens do not get range enough.

Bryan Optimistic.

Chicago, July 5.—W. J. Bryan, who stopped in Chicago yesterday on his way to Nebraska, declared if a third party were formed Col. Roosevelt might drive some reactionary Democrats over to President Taft, but with the Democratic ticket and platform he could not expect any progressive Democrats to betray the party. When asked today if he still held to that estimate of 2,000,000 on Mr. Wilson's majority, he said: "I am not counting on a third party. That might reduce the plurality some and yet not so many, as few Democrats will desert the party for Mr. Roosevelt.

"One of the best planks in the platform is that declaring for popular election of committeemen, the committeemen to begin service when elected. This condition will prevent the other committeemen from coming into the convention."

GOLF BALL DEADLY WEAPON

New Property of Gutta Percha "Pill" Discovered by Curious Investigator in New York.

New York.—The golf ball has been added to the list of deadly weapons, and now that the season is beginning it behooves golfers throughout the country to take warning from the fate of a local golfer and to refrain from too much curiosity as to how a golf ball is made. Of course many persons who have intercepted the flight of the "gutter" with various portions of their anatomy have for years considered it a deadly weapon. But in these cases it was merely a missile and not inherently dangerous.

Now, however, it has been discovered that the golf ball must also be classed as an explosive. This unexpected state of affairs was brought to light here because of the curiosity of a golfer to discover what sort of a liquid center the ball with which he had been playing contained. As the easiest manner of finding out he was proceeding to vivisect it with his pocketknife, when it suddenly exploded, the liquid center entering one of his eyes. As a result it is feared that he may lose his sight, although this will not be known until he merges from the dark room to which the accident will confine him for several weeks.

Just what the liquid center of the ball which caused it to burst consisted of no one seems to know, although the effect was that of an acid of caustic which burned the eye. Whether golfers carrying a half dozen balls through the city streets will be arrested under the concealed weapon law remains to be seen, but now that they have entered the category of explosives the game may take on a new feature of sportiness.

DISEASE IS ALMOST AT END

Every State and Territory Has Been Invaded by Infantile Paralysis.

Washington.—The wave of poliomyelitis, or infantile paralysis, which has been sweeping over the North American continent for the last two years, is apparently subsiding, according to figures collected for the surgeon general by the public health and marine hospital service. Every state and territory in the Union has been visited by the disease, even Alaska, whence it crossed Behring strait to Siberia and is now traveling through Siberia.

The mortality has ranged from 3.1 per hundred cases in the District of Columbia to 13.9 per hundred cases in Vermont. During 1910 the greatest prevalence of the disease was in Iowa, Massachusetts, Minnesota, New York and Pennsylvania; during 1911 the greatest prevalence was in Illinois, Indiana, Iowa, Massachusetts, Minnesota, New York, Pennsylvania and Wisconsin.

The total of deaths in 1911 from poliomyelitis was 440, as against 950 in 1910; and the total of cases in 1911 was 1,931, as against 5,861, in 1910. Cancer is racing side by side with consumption as a cause of death in the state of Victoria, in Australia, so it is reported by the government statistician at Melbourne. The figures are: Deaths from consumption in 1910, 1,078; 1911, 1,108; from cancer in 1910, 1,081; 1911, 1,100.

The latest reports showed plague at Hongkong, China; at Honokaa, in Hawaii; through India; at Calcutta, in Peru; at Durban, in South Africa; at Port of Spain, Trinidad, West Indies; at Sargol, in French Indo-China; in Java; on the Island of Mauritius; in Algeria, Africa; on the Azores; in Brazil; in British and German East Africa, and in Ecuador, Persia, Siam, Russia, Turkey in Asia and the Straits Settlement.

DOOMED MAN DRAWS BRIEF

Murderer Signs Appeal With Initials, Showing Number in Death House.

Trenton, N. J.—For the first time in the history of New Jersey a man convicted of murder and in the death house at the state prison, has prepared a brief in his own behalf for presentation to the court of errors and appeals in an endeavor to get a new trial.

Frank McDermitt and Chauncey H. Beasley, as counsel for Allison M. MacFarland, filed with the court an elaborate brief prepared by MacFarland, who stands convicted of poisoning his wife in Newark.

The case was carried up on a writ of error and in addition to the lawyers' brief the brief of MacFarland was filed. The man goes into the case in detail and has an explanation for every questionable phrase in the now famous "Bunny" letters. As MacFarland is an educated man, the brief was intelligently prepared. He signed it "D. H. 1851." The initials stand for "Death House," and the numbers are his prison designation.

REVERE BELL'S TONGUE OUT

It Falls From City Hall Tower, Bath, Me., and Makes Hole in Roof—No Curfew Rung.

Bath, Me.—For the first time the Paul Revere bell in city hall tower did not ring out the curfew a few nights ago. When it rang for the noon hour, as has long been the custom, its 15-pound tongue fell out and smashed a hole in the roof of the city building. The bell is the genuine Paul Revere and nearly a century ago hung in the steeple of the old North church in Bath.

CITY NEWS IN BRIEF

W. T. Hall returned to his home at
Tishomingo this morning.

The best dinner in town you will
find served at the Palace Cafe. 76-6t

L. O. Harris left this morning on a
week's visit to Mannsville.

Those who attended the Stonewall
picnic yesterday report a great time
all the way around. Plenty of amuse-
ment and plenty to eat.

Loose leaf ledger's at Holley's.
229tf

Always got all kinds of paint at
lowest prices at Dr. Holley's Drug
Store. 229tf

The Masonic grand lodge of Mich-
igan has again refused the petition of
negro grand lodges for recognition.

See B. B. Howard for all kinds of
tin work. Phone 256. 166-dtf

The Ladies' Aid of the First Bap-
tist church will give a lemon snow
social at Mrs. A. L. Beck's Tuesday
the 9th from 6:00 to 10:00. 78-3t

New Wall paper coming in all the
while at Holley's. 229tf

The Baptist young people will give
a social on the church lawn this
evening from 7:30 to 9:30. All young
people come and bring a dime.

The purest and the best "Crystal
Ice Cream" served at Ramsey's. 7t

Prof. J. H. Lowery's singing school
at Knox will close this evening with
a basket supper. Sunday, however,
there will be an all day singing at
Knox with dinner on the ground.

When you are up early in the morn-
ing and want a bracer go to Palace
Cafe. Partake of a cup of good cof-
fee. 76-6t

J. A. Morgan left this morning for
Springfield, Colo., where he was called
by the illness of his son.

The Yeomen will initiate a class of
one hundred July 20th. Give us your
application today. 64-3td

This morning Drs. Ligon and King,
John Blanford and Bruce Ligon left
for a fishing trip to the vicinity of
Tupelo.

All kinds of blank books, ledgers,
cash books and day books at Holley's
Drug Store. 229tf

E. Arthur Collins, who is traveling
in the interest of Stephens college, of
Columbia, Missouri, spent the Fourth
with his sister, Mrs. L. B. Lee.

On East Main street, in beautiful
Ford addition. Terms to suit pur-
chaser; small cash payment. Title
perfect. R. P. Ford, Ada, Okla. 47-tf

E. J. Bell and wife, Misses Ollie
and Mary Coleman and Harvey Wells
and Clarence Lowery composed a pic-
nicking party who spent the Fourth
at Byrd's Mill.

District Manager W. W. Ayres and
W. E. McKelvey want your applica-
tion in the Yeomen. Phone 184 or 140.
164-30t

H. P. Head, an insurance adjuster
from Oklahoma City, is in town to-
day to make a settlement with the
city for the damage done at the city
hall by the fire Sunday night.

Palace Cafe is noted for good ser-
vice and quick attention. 76-6t

Mrs. E. C. Peay is very ill with ty-
phoid fever.
Join the Brotherhood or American
Yeomen. Membership 165,000 reserve
fund \$2,000,000. 64-30t

The new city commissioners have
been making a round of the town to
spot the places needing to be cleaned
up. Property owners are likely to
hear from them shortly.

Very few Fourth of July accidents
were reported in the daily papers
this morning. The idea of a sane
celebration is evidently spreading.

Attention is called to the announce-
ment of I. M. King as a candidate for
County Judge, appearing in this issue
of the News. Further mention will
be made of his candidacy later.

This evening Van Gofre and Cotrely
will appear at the Majestic in their
feature comedy act, "The Musical
Clown and the Soubrette." This is
an act that never fails to please old
and young alike, for these artists
meet every requirement of the most
critical. Pathe's Weekly is always
first-class. "Fortunes of a compos-
er," is a romance of the stage that is
full of thrilling interest. Bargain
matinee tomorrow afternoon. Don't
fail to see the vaudeville, for it is
far above what one ordinarily sees in
a town the size of this.

Judge and Mrs. C. A. Galbraith and
Merle Sears celebrated the Fourth
in Oklahoma City.

MANY LIVES LOST IN WRECK NEAR BUFFALO

Corning, N. Y., July 5.—A passen-
ger train Number 9, on the Lacka-
wanna railroad, which left New York
at 8:45 Wednesday night for Buffalo,
was crushed from behind by a train
of express cars near here early yes-
terday and at least 34 persons were
killed and 50 injured. Thirty-four
bodies have been taken from the de-
bris. The crash occurred before day-
light. Many of the injured were mor-
tally hurt.

Most of the dead and injured were
in the two day coaches on the rear
of the train, which was toppled into
the ditch. The five Pullman cars re-
mained on the track.

Struck in the Rear.
The passenger train, which runs
from New York to Buffalo, had been
standing on the track for twenty min-
utes when the express train, which
carried no passengers struck it in the
rear at full speed. The two coaches
attached to the rear of No. 9 were
hurled down an embankment and the
express plunged half way through
the rear Pullman of the standing
train before it came to a stop.

The collision occurred at 5:25
o'clock in the morning. Most of the
killed were passengers in the day
coaches who were going home to
spend the Fourth of July.

F. W. Drake, of Passaic, N. J., the
Pullman conductor, said that four
passengers were killed in the Pull-
man.

On account of the confusion and
the lack of wire service, news of the
disaster was slow in reaching this
city, but by 6:30 o'clock a score of
physicians were on the scene and the
injured were being brought to the
Corning hospital.

Gas From Peat.
The production of gas from peat
having a low water content (up to
about 20 per cent.) for use in suction
gas (sauggas) engines has already
met with success in Germany, but for
a number of years efforts have been
made to utilize peat with a water con-
tent as high as 50 to 60 per cent. and
thus eliminate the costly process of
drying the raw material.

Always Some Shred of Good.
No man is perfect; yet no man is
wholly broken and useless. You may
grind a mirror to powder, so that it
no longer reflects a single ray of light,
but you cannot crush a human soul so
utterly that no trace of goodness—
which is a reflection of the eternal
goodness—may be found somewhere
in its depths.—Christian Endeavor
World.

WILSON WILL NAME CAMPAIGN MANAGER

Seagirt, N. J., July 5.—The Demo-
cratic National Committee arrived at
Seagirt yesterday afternoon and pro-
ceeded directly to Governor Wilson's
cottage where luncheon was awaiting
them on the lawn.

The committee ended a lunch-
eon to meet with Governor Wilson in
Chicago on July 15 or the evening
a chairman and other officers.

Seagirt, N. J., July 5.—Thirty-five
members of the Democratic National
Committee called on Woodrow Wil-
son at Seagirt yesterday. They came
from Baltimore on a special train and
on the way talked of the selection of
a proper man to manage the cam-
paign.

As to who he will be, whether Wm.
F. McCombs, Fred B. Lynch, Robert
S. Hudspeth or any one of a half
dozen others mentioned for the pur-
pose he refused to say.

Thursday afternoon T. O. Cullins,
Jr., entertained a crowd of his boy
friends in honor of his friend, Willis
Threlkeld, of Durant. The young
men made the occasion a real Fourth
of July celebration and had a general
good time.

A SURPLUS FROM GOVERNOR'S OFFICE

According to the report issued by
Governor Cruce the executive depart-
ment of the state will turn back \$21-
602.64 of the appropriation for that
department for the fiscal year ending
June 30, 1911, which was \$34,100. The
total expenses for the department
was \$12,497.36. The expenses of the
department, in detail, are: Governor's
salary, \$4,500; salary of private sec-
retary, \$2,000; salary of Carl F.
Croninger \$1,200; postage, \$26.84; tel-
ephone and telegraph, \$267.02; spec-
ial service and extra help, \$3,549.25;
stationery and office supplies, \$518.21;
contingent fund \$56.04.

"It is only right that the people
should know how this money is be-
ing expended," says the governor. "Al-
though the legislature prescribes the
amount of money which shall be turned
over to the departments, it does
not prescribe the manner in which
this may be expended. This gives
room for an immense waste. The con-
tingent fund, for instance, covers a
multitude of sins, and unless state
officers are careful they will find
that their money is being used for
purposes which are not intended for
them."

HOOVER'S

East Main Opposite Harris Hotel

Causes of Headaches.

Headache may be the symptom of
any one of a number of diseases, or
even of some slight physical defect.
And, strangely, headache rarely
means that anything is wrong with
the head. It may mean, however, that
the septum, or cartilage dividing the
nostrils, deviates, or that an obstruc-
tion to proper nose breathing, due
to polyps, adenoids and other growths
or to enlargement of the turbinates
(bones in the upper back portion of
the nose) exists.

Again, headaches are caused fre-
quently by eye strain, inflammation of
the nose, throat or ear, and even by
defective teeth.

Some of the diseases of which head-
ache is symptomatic are: Mal diges-
tion, grip, typhoid fever, malaria,
hysteria, nephritis (inflammation of
the kidneys), rheumatism, diabetes,
anaemia (impoverished blood) neu-
rasthenia (nerve exhaustion), and
neuralgia.

Then there are various kinds of
headaches differently localized. A
sharp ache, coming in paroxysms and
affecting the eyeballs indicates neu-
ralgia; a sharp and continual pain,
hysteria. A dull and diffused frontal
and temporal ache is due usually to
digestive disturbances, to anaemia or
to nephritis; pain at the top of the
head (vertex) may come from exces-
sive "nervousness" or from bladder
trouble; while sharp aching in the
occipital or lower back part of the
head may mean a beginning of men-
ingitis, adenoids or merely decayed
teeth.

The abuse of alcohol, tobacco and
other narcotics often produces ob-
stinate and severe headaches—in fact
auto-intoxication (self-poisoning) is
perhaps the most prolific cause of
this peculiarity exasperating form of
torture. The systematic poisoning
from constipation frequently produces
head pains.

That grief, worry or fright is oft-
en responsible for so-called nervous
headache is well known; but any
form of fretting uses up an abnormal
amount of tissue, the waste of which
unless limited, poisons the blood
stream. Constant breathing of bad
air in illventilated rooms pollutes the
blood also, although in this case the
poison comes from without instead
of from within.

An anaemic headache generally dis-
appears at night after the patient has

retired, and it is always relieved by
lying down. The headache from a hy-
peremia, or plethora (too much
blood) is, on the contrary, made worse
by lying down, but may be mitigated
by drugs tending to slow heart ac-
tion.

How, now, with such a portentous
array of causes, is it possible to
avoid headache?

First, by keeping the blood pure
and the circulation active by proper
diet as well as by regular exercise in
the open air; second, by keeping the
nostrils clear of all obstructions tend-
ing to interfere with nose breathing;
third, by having any refractive er-
rors of the eyes promptly corrected;
and, finally, by seeing that the teeth
are attended to regularly to prevent
dental caries or softening.

Even slight headache, be it frontal,
temporal, occipital or vertical, recur-
ring frequently, though of no grave
import in itself, is uncomfortable,
and the fact that it may be so often a
symptom of any one of a host of
different diseases, many of which are
serious its receiving much greater
attention than it has heretofore.—
Milwaukee Sentinel.

MRS. J. HELMER

PASSES AWAY

Mrs. J. E. Helmer, aged 82, died
this morning at 1 o'clock, after an
illness of five weeks. The funeral
services were conducted at the home
of deceased this afternoon by Rev. S.
B. Damron, and the remains interred
at Rosedale cemetery.

Mrs. Helmer was a native of Penn-
sylvania and had been a resident of
Ada for eight years, and was uni-
versally loved and respected by all
who knew her. She was a consistent
Christian and a member of the Meth-
odist church. She is survived by
eight children: T. A. Elliott and Mrs.
W. H. Nettles of Ada, John Elliott of
Pilot Point, Texas, Wm. Elliott, of
Fort Scott, Kansas, Joe Elliott and
Mmes. George Dillard and Ida Har-
per, of Alex, Oklahoma, and Mrs.
Fred Motz, of Fort Scott.
